DSCHANG CAMEROON

The faculty of economics (FEM) is one the faculties created following the presidential decree No 93/027 of the 19th January 1993 putting in place the Academic and Administrative organisation of the University of Dschang

Our programmes, which are of the same structure and fully compliant to the BMP (Bachelor-Master-PhD) system are designed to prepare the next generation of Cameroonian leaders. What make our programme so special are its structure and the density of its output.

Since its creation, the FEM is at the cradle of professionalization with the creation of two professional Bachelors (Accounting-Finance and Marketing) and other Professional Masters in direct collaboration with the professional world.

With the intense use of the Information and Communication Technology (ITC) the FEM offers Master 2 students and professionals who do not have the opportunity to attend full time classes to do so thanks to a semi-correspondence teaching system.

As to research, the Faculty maintains one laboratory (Research laboratory in Applied and Fundamental economics) where all the research activities and publications revolved around.

*Welcome to the Faculty of Economics and Management
Good luck in your studies and your future professional careers.*

The Dean
